

PERGO®

VINYL PLANKS & TILES
COLLECTION 2023

FLOORS FOR REAL LIFE

At Pergo we build strikingly beautiful, extremely hard-wearing floors. No shortcuts, no compromises, just the best in Scandinavian function, design and engineering. We invented laminate flooring and in fact, we've been innovating floors that have gone from strength to strength from the 1970's. Floors that are easy to install and maintain. And with one of the widest ranges around in wood, vinyl and laminate, you're sure to find the perfect one for you.

Come in and look around.

04

WHY PERGO VINYL FLOORS

The combination of Scandinavian minimalism with maximal choice. Vinyl floors are soft, silent, waterproof, durable - and look just like the real thing. Just quieter.

06

RIGID OR FLEX?

What's your floor for? If you're looking for extra silent and comfort, then go Flex. Need that extra tough floor that doesn't need to be installed on even surface? Choose Rigid.

10

SUSTAINABLE. NATURALLY.

We constantly innovate to minimize the potential impact on our planet and to insure a healthy indoor environment.

12

RIGID CLICK

Tough, hard-wearing flooring specially designed for installing on uneven surfaces and water resistant with AquaSafe.

30

FLEX CLICK

Comfortable, soft and silent floors for cool living, where you have a regular, prepared surface.

46

ACCESSORIES

It is the little things that make big things happen. Complete the look with Pergo accessories of your choice.

WHY PERGO VINYL FLOORS

Our vinyl floors are the combination of Scandinavian minimalism with maximal choice. From soothing beige to calming greys, from cool tiles to warm oak, there's a Pergo vinyl floor to match your style – and all your needs.

Soft, silent and beautiful to walk on, yet ultra-strong, resistant and waterproof. Pergo vinyl floors make sure your hallway and other hard-wear areas look bright and welcoming.

What's more, they're ortho phtalate-free, so you can safely leave the kids playing on the floor while you relax.

Whether you're into DIY or use a professional company, installing your vinyl floor is easy. You can even install our Rigid vinyl floors on uneven surfaces, and some even have underlay attached already. Now that's smart – and simple.

Rigid vinyl floors are great to install in the hallway as they the surface is watertight* thanks to AquaSafe, so do not worry about muddy boots, umbrellas or rain-wet dogs. Just step in.

OTRA V4107-40277 BEIGE PREMIUM OAK

SOFT, SILENT AND WARM.
For you, your kids and your pets.

WATERPROOF AND EASY TO CLEAN
Don't worry about spills and stains, our vinyl floors are exceptionally easy to clean.

LIKE NATURE
You wouldn't believe it's not the real thing. Floors with a look and feel inspired by nature itself.

HIGH RESISTANCE TO WEAR
For the toughest families, for years and years to come. All thanks to the superior top layer, which has excellent resistance to wear.

ACCESSORIES TO MIX AND MATCH
From faultless installation, to seamless finishing and worry-free maintenance of your beautiful new floor. Choose from the wide range of accessories.

OTRA V4107-40019 MODERN COFFEE OAK

CHOOSE THE VINYL FLOOR THAT'S RIGHT FOR YOU.

Depending on your needs, choose between the soft and comfortable Flex or the extra tough Rigid.

FLEX CLICK. An extra comfortable, soft and silent range of floors for comfortable living. And where you have a regular, prepared surface.

RIGID CLICK. Tough, hard-wearing flooring specially designed for installing on uneven surfaces**. Some floors come with an attached underlay so you can install floors so much quicker.

RIGID VINYL	FLEX VINYL
 <p>Extra-strong core and extra-resistant top layer for high impact resistance, greater durability and longer life.</p>	 <p>A soft, comfortable touch that reduces sounds and noise.</p>
 <p>The superior choice when you don't want to worry about water. AquaSafe technology makes the surface watertight* and oh-so easy to clean.</p>	 <p>Don't worry about spills or stains. Flex floors are 100% waterproof.</p>
 <p>Pergo Rigid Click normally only requires an underlay – even if you install it on a tile floor or a slightly uneven subfloor**. This makes Rigid an excellent choice for renovation projects.</p>	 <p>Good dimensional stability when installed on the Heat Underlay. Ideal for installation in rooms with varying temperatures. No profiles needed, even in large rooms.</p>
 <p>NEW Aura Pad Pro and Otra Pad Pro have an attached underlay, which makes your installation unbeatably fast and easy. See page 9.</p>	 <p>All Pergo Flex floors have a 25-year warranty***.</p>
 <p>All Pergo Rigid floors have a lifetime warranty***.</p>	 <p>Easy to cut with a knife. PerfectFold™ system makes installation quick and simple.</p>
 <p>Fast, easy installation with Uniclic® click system. Just click in – then move in.</p>	

*tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

**for requirements, please advise floor installation instructions on website: pergo.com.

*** For full warranty go to Pergo.com.

AQUASAFE: BECAUSE LIFE'S TOO SHORT TO WORRY ABOUT WATER

All Pergo Rigid vinyl floors have AquaSafe, our in-house developed technology that creates a sealed, 100% watertight* surface all the way down into the bevels, preventing water from penetrating the floor. It simply stands on the surface and you can easily wipe it away.

* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

NEW PAD PRO: THE SMARTER, FASTER WAY TO INSTALL YOUR FLOOR

The Otra Pad Pro and Aura Pad Pro ranges come with the underlay pre-attached, to make installing floors smarter, speedier and easier.

Specially designed for professional installers in multi housing projects, and enthusiasts who want to install more square metres in a day, just install Otra Pad Pro and Aura Pad Pro and admire the result.

QUICK AND EASY INSTALLATION
A really fast way to install your floor even if you're not a professional.

NO NEED FOR SEPARATE UNDERLAY
There is no need for sub-work, just go straight on with the floors.

SUPERIOR SOUND REDUCTION TO NEIGHBOURING ROOMS
Underlay is perfectly attached and gives a great support to the click system and optimal acoustics.

ADDITIVES IN OUR VINYL FLOORING CONTAIN NO HARMFUL SUBSTANCES AND ARE 100% ORTHO-PHTHALATE FREE.

SUSTAINABLE. NATURALLY.

We produce flooring as sustainable as possible, constantly innovating to minimize the potential impact on our planet. As the inventors of laminate flooring, we're proud to be the first producer to receive the Nordic Swan label and EU Ecolabel for a floor.

VINYL COMPONENTS

There are 3 key ingredients in a Pergo vinyl floor. ±40% chalk, a material abundantly available in nature, ±25% internally recycled PVC generated from our own production waste and ±25% new PVC, made from chlorine (common salt) and ethylene (crude oil).

DURABLE PRODUCTS

We do everything possible to ensure our vinyl flooring will last a very long time, up to 25 years or even lifetime. Our R&D team is working hard to find alternative solutions with more sustainable materials.

ORTHO-PHTHALATE FREE

Additives in our vinyl flooring contain no harmful substances and are 100% ortho-phthalate free. You can be confident they are completely safe for you and your children.

CIRCULAR ECOSYSTEM

99% of our own industrial waste is recycled through our internal production process. We do not unnecessarily burn or dump materials and we operate our own internal closed circuit. This means our production facility takes its responsibility and almost no waste is lost or destroyed.

CLEAN AIR INDOORS

We spend lots of time indoors, and there are many things that influence air quality, like ventilation, cleaning agents, candles and even your furnishing materials and flooring. We produce flooring in-house so we know exactly which materials are involved and we can control emissions of harmful substances. VOC emissions of our vinyl floors are lower than the European norm, resulting in an A+ rating and M1 label for very low emissions.

WIN-WIN ON WASTE

Did you know that in our factory where we produce Flex vinyl flooring, we use wood dust waste from our laminate plant next door to generate green heat for our production line? Thanks to this internal energy we are able to cover 70% of our site's heat requirements, and avoid CO2 emissions of 25,000 tons per year.

INVESTING IN WIND ENERGY

Our Rigid vinyl flooring factory runs on green energy, generated by three of our own windmills. These produce an annual total of 12,600 MWh of green energy, equating to the annual energy consumption of 3,490 European households.

UNILIN, the group behind Pergo, has invested in two biomass plants where wood waste is converted into energy. This enables us to run our production on 24% green/renewable electricity and 74% green heat at a group level in 2021.

VINYL PLANKS & TILES

RIGID CLICK

Beautiful flooring that lasts...and lasts. Ultra-strong, water resistant and with high impact resistance our Rigid vinyl floors will look just as good after years of hard wearing as they do when they're new. You can fit them on irregular floors* too, so they're perfect for that renovation job.

**for requirements, please advise floor installation instructions on website: pergo.com*

Transform the feeling of your entire room. Make it wider, narrower, longer, darker or lighter depending on which size and colour you choose – the options are endless.

Product Name	Dimensions (mm)

PAD PRO 1251 x 189 x 4 + 1 MM | 4-WAY BEVEL | SMALL PLANKS
PRO 1251 x 189 x 4 MM | 4-WAY BEVEL | SMALL PLANKS

Stylish looks, tough vinyl. Otra is perfect for any room where the going gets tough. It's work-proof, play proof and pet proof. And of course, 100% water resistant with AquaSafe.

Otra is coated with a superior protective layer for stain and wear resistance to keep your floor looking great. With a 4-way bevel, 7 different designs for every style, and 10 unique planks per decor, adding Otra to your room adds that little bit of luxury. Otra range also come as a pad option – where the underlay is pre-attached to make installing floors smarter, speedier and easier. The Uniclic® system lets you install Otra Pro and Otra Pad Pro quickly and easily, even on uneven floors.

LIMFJORD V3622-40234
CONCRETE STONE

LIMFJORD

Love the elegance and sophistication of stone? Limfjord large stone sizes to highlight spacious areas. Stone is cold, yet Limfjord makes rooms look warm and authentic. Warm to walk on, sit on, lie on, work on. Yet tough, water resistant and with high impact resistance. So you can keep that stone look for ages.

IT ALL STARTS WITH THE FLOOR

IDEAS AND INSPIRATION FROM AN INTERIOR DESIGNER

We sat with Pella Hedeby, Swedish interior designer and stylist, to get tips on what to think about when you decorate your home. Pella has lots of experience in decorating private homes and commercial premises and is passionate about what materials you should choose and everything else about interior design, from flooring to colour combinations.

What are the main things you should think about, when decorating your home?

The bases are everything. If you have well-thought-out material choices that follow a common theme through your home, then you have a great base for the way you furnish. "Less is more" may be a bit of a tired expression, but it's so true. Put lots of thought into what you add. Often it doesn't take much to create that homely feeling. Less "things" make it easier to keep your house tidy and enjoy what you have.

What are the future trends of colours and colour combinations?

I have a restrained approach to trends. Whether it's colours, materials or things. Sure, I can be inspired by something new, but I always ask myself, "Is it something I could live with over time? Did I like this 10 years ago and will I like it after 10-20 years?"

Having said that we see more colour and playfulness in many places today. Together with a minimalist, stripped-down, toned-down expression. It's important to remember that we are all different. Some people constantly need

new impressions and a lot of pulse to get energy. I belong to the group that takes in the smallest shade, filled with a streak of light, a scent and feeling in a texture. So I need to scale back and minimize things to experience balance and harmony.

In my world, materials and textures set the tone and feeling in a room. Then you can work with the smaller details.

Tone-in-tone or mixing your favourites. Like when you put together a bouquet of flowers, layering shapes and colours.

"CHOOSE A FLOOR THAT LASTS OVER TIME"

What things about flooring should you think about if you want to give a room extra space?

Lighter shades give you a more airy feeling. It's the same when you add colour to other surfaces. It reflects light and gives you that feeling of space.

Any rules about combining colour on floors and walls?

When decorating a new home, or renovating from scratch, my tip is to always start with the floor. You lay a floor so it lasts a long time, slightly more long-lasting than the colour

of the walls. The floor forms a large part of the interior and the feeling in the room. The sense of style is set with the floor and the choice of skirtings should be in harmony with the architecture. A great way to put it all together is to create a mood board with samples of materials, colours and inspirational images.

Should flooring in different rooms have to match each other, or should I see each room as unique?

I think it's nice to think holistically and let one material be the base everywhere. But different rooms naturally have different functional requirements. So I would say that it's increasingly common to mix different types of floors based on function and focusing on sustainability.

What's the biggest mistake people make when choosing a new floor?

Many people start with colours and other materials and interior details, leaving the floor as a compromise. I suggest you turn that upside down. The main thing is to choose a floor that

lasts over time. It's costly and time consuming to replace a floor, so choose what is the base of your home carefully.

Any thoughts regarding mixing different types of wood on floors and furniture?

Instead of mixing different types of wood flooring, I'd mix and match different types of wood on floors with other furnishings. For example, it's nice to mix furniture and interior details with a vintage patina that contrast with the choice of materials. I think natural material choices are always welcome elements that add a genuine feeling to any home. If there is a "rule", it's better that it's a complete, natural contrast than something that melts together – but doesn't really. Here you can balance the feeling that if a floor takes loads of space, you can add something to balance it. Like adding a rug and then furnishing with wooden furniture. Or working with wood in smaller details, a hook strip, a wooden bowl or the frames around, art on the wall...

PELLA HEDEBY
INTERIOR DESIGNER

YOUR FLOOR – FINISHED IN STYLE

Choose from our wide range of accessories to give your interior that perfectly finished look. From seamless transitions to stairs or walls, silent underlays to improve your comfort or a skirting that finishes off the room in style. Details make perfection.

UNDERLAYS

Make a great floor greater. Underlays increase walking comfort, improve your room's acoustics, avoid creaking noises, support the click system and protect floors from rising moisture and rising damp. They can be combined with underfloor heating too.

SKIRTINGS

Finish the look with colour matching skirtings, or complete your interior style with one of the many paintable white skirtings.

PROFILES

Hide those saw cuts and give your floor room to expand with profiles. Create a smooth transition with the colour matched Incizo® profile. Or go for a metal finish.

ALL YOU NEED TO INSTALL, FINISH AND MAINTAIN YOUR FLOOR

A vinyl floor is more than the planks you walk on. It's a complete home decor solution. That's why Pergo also offers a full line of accessories. Everything you need for trouble-free installation, finishing and maintenance.

1. UNDERLAYS

Enjoy walking on quiet floors without creaks? Choosing the right underlay can improve your living comfort significantly.

2. SKIRTINGS

Give your interior that stylish impression with skirtings that have the same look as the floor. You can also go for the white and paintable skirtings to match the colour of the wall.

3. EXPANSION PROFILES

Floors in connecting rooms melt together thanks to a colour matched expansion profile. Read on about our Incizo® 5-in-1 solution on page 50.

4. ADAPTER & END PROFILES

An elegant way to make a transition when vinyl floors meet other surfaces. Use an end profile between vinyl and windows and an adapter profile between vinyl and lower floor surfaces. Available in our Incizo® 5-in-1 solution.

5. STAIR COVERS

Pergo's flooring is an excellent choice for staircases. Stair covers provide an elegant finish to each step.

UNDERLAYS

CHOOSE THE UNDERLAY THAT'S RIGHT FOR YOU.

Make a great floor greater. Select an underlay before installing your new vinyl floor.

Besides creating a level floor, underlays increase walking comfort, improve your room's acoustics and avoid creaking noises.

COMFORT UNDERLAY
Sustainable all-round underlay made of recycled PET flakes. Comfort Underlay is suitable for any room, has a very good all-round sound reduction and is compatible with underfloor heating or cooling.
Thickness: 1,15 mm. 15 m² / roll.

PGVUDLCOMFORT 15

Walking sound reduction ●●●●○
Impact sound reduction ●●●●○

HEAT UNDERLAY*
Recommended underlay for rooms with direct sunlight (large windows) and the best choice for floor heating. It has a very good sound reduction and it's also compatible with floor cooling.
Thickness: 1,55 mm. 10 m² / roll.

PGVUDLHEAT10

Walking sound reduction ●●●●●
Impact sound reduction ●●●●○

TRANSIT UNDERLAY
Ideal underlay for first floors and apartments, offering the best impact sound reduction to neighbouring rooms. Our Transit Underlay is a sustainable choice as it's mainly made of recycled PET flakes. It's also compatible with underfloor heating or cooling.
Thickness: 1,20 mm. 15 m² / roll.

PGVUDLTRANSIT15

Walking sound reduction ●●●●○
Impact sound reduction ●●●●●

*For heavy commercial use it's mandatory to use the Heat underlay in combination with Otra and Aura.

WATER RESISTANCE MADE EASY

Installing a water resistant floor is really easy, follow the steps below and get your vinyl floors ready for splashes, damp and the kids indoor water games.

As an icing on the cake, it can bear up against a good cleaning. Only suitable for Rigid vinyl.

TWO STEPS TO GIVE YOUR FLOOR A WATERTIGHT FINISH.

1. FOAMSTRIP
15 m × 8 mm × 5 mm
An elastic filler for gaps around the floor perimeter.
NEVRFOAMSTRIP15

PGCLEANINGKIT

FIND THE RIGHT FLOOR FOR YOUR PROJECT

Choosing the right floor is often the hardest part of refreshing your interior. Here are some tips to get you started, and help guide you towards the perfect floor.

PREPARE FOR WEAR

Our durable, hard-wearing floors stay beautiful for longer. They are the ideal choice for a busy hallway or kitchen.

LET'S TALK ABOUT WATER

A water resistant floor is nice to have in a living room. But in the kitchen it's a must. Our water resistant floors are also stain resistant.

SIZE MATTERS

Large boards boost the feeling of space in a large room, so if your home allows for it, go big.

THE FINISHING TOUCH

Accessories have a big impact on the look of your room. Choosing a matching skirting makes your room feel complete and lends a solid impression.

USE FLOORLAB

Want more from your floor? Use the FloorLab app. Take a photo of your home and get a sneak peek of which one of our floors is the perfect match for your room. Getting the perfect fit just got simple.

VISIT A PERGO SUPPLIER

To see and feel the floors in real life, please go to our website to find your nearest local Pergo supplier.

SEE HOW A FLOOR CAN CHANGE THE APPEARANCE OF YOUR HOME JUST BY UPLOADING A PHOTO.

THE PERFECT RESULT IS JUST A CLICK AWAY
