

PERGO®

VINYL PLANKS & TILES
COLLECTION 2023-2024

FLOORS FOR REAL LIFE

At Pergo we build strikingly beautiful, extremely hard-wearing floors. No shortcuts, no compromises, just the best in Scandinavian function, design and engineering. We invented laminate flooring and in fact, we've been innovating floors that have gone from strength to strength since the 1970's. Floors that are easy to install and maintain. And with one of the widest ranges around in wood, vinyl and laminate, you're sure to find the perfect one for you.

Come in and look around.

04

WHY PERGO VINYL FLOORS

The combination of Scandinavian minimalism with maximal choice. Vinyl floors are soft, silent, waterproof, durable - and look just like the real thing. Just quieter.

08

DURABLE. NATURALLY.

We constantly innovate to minimize the potential impact on our planet and to insure a healthy indoor environment.

10

OUR COLLECTIONS

Tough, hard-wearing floors especially designed for installation on uneven surfaces and water resistant with AquaSafe.

32

ACCESSORIES

It is the little things that make big things happen. Complete the look with Pergo accessories of your choice.

WHY PERGO VINYL FLOORS?

Our vinyl floors are the combination of Scandinavian minimalism with maximal choice. From soothing beige to calming greys, from cool tiles to warm oak, there's a Pergo vinyl floor to match your style – and all your needs.

Soft, silent and beautiful to walk on, yet ultra-strong, resistant and water resistant. Pergo vinyl floors make sure your hallway and other hard-wear areas look bright and welcoming.

What's more, they're ortho phtalate-free, so you can safely leave the kids playing on the floor while you relax.

Whether you're into DIY or use a professional company, installing your vinyl floor is easy. You can even install our Rigid vinyl floors on uneven surfaces, and some even have underlay attached already. Now that's smart – and simple.

SOFT & SILENT

It feels warm, soft, and silent to walk on yet the floor is ultra-strong and has excellent resistance to wear and impact.

WATER RESISTANT

The floor has a worry-free watertight* surface and offers high resistance to stains, making it a delight to clean.

NATURAL LOOK & FEEL

Extraordinary natural designs and a tactile, matte surface. The floor will keep its fresh appearance thanks to our new superior top layer.

EASY TO INSTALL

Fast, easy installation with Uniclic® or Unizip® click system, even on slightly uneven surfaces.** All Pad Pro floors have an integrated underlay, which makes installation even faster and easier.

ACCESSORIES FOR A PERFECT RESULT

Everything you need from installation to the finished result and after care. Tools, colour matched skirtings and profiles, efficient maintenance products and more.

LIFETIME WARRANTY

All Pergo vinyl floors have lifetime warranty***, so that you can enjoy your floors without worry.

* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

** For requirements, please advise floor installation instructions on website: pergo.com.

*** For full warranty go to pergo.com.

AQUASAFE: BECAUSE LIFE'S TOO SHORT TO WORRY ABOUT WATER

All Pergo Rigid vinyl floors have AquaSafe, our in-house developed technology that creates a sealed, 100% watertight* surface all the way down into the bevels, preventing water from penetrating the floor. It simply stands on the surface and you can easily wipe it away.

* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

NEW PAD PRO: THE FASTER, EASIER WAY TO INSTALL YOUR FLOOR

Most of our Rigid click floors come with the underlay pre-attached, to make installing floors smarter, speedier and easier.

Specially designed for professional installers in multi housing projects, and enthusiasts who want to install more square metres in a day. Another advantage with the Pad Pro is that it gives great sound reduction to neighbouring rooms. Creating added comfort in your home.

Walking sound reduction
Impact sound reduction

To compare sound reduction qualities of our different installation options with underlay, go to page 34.

QUICK AND EASY INSTALLATION

A really fast way to install your floor even if you're not a professional.

NO NEED FOR SEPARATE UNDERLAY

There is no need for sub-work, just go straight on with the floors.

SUPERIOR SOUND REDUCTION TO NEIGHBOURING ROOMS

The underlay is perfectly attached and give optimal accoustics.

OUR AMBITIOUS CLIMATE
TARGETS FOR 2023 ARE
VALIDATED BY THE SCIENCE
BASED TARGETS INITIATIVE.

DURABLE. NATURALLY.

We produce flooring as sustainable as possible, constantly innovating to minimize the potential impact on our planet. Therefore, we (Unilin Group) have linked ourselves to the Science Based Targets Initiative*. Our set and verified climate targets for 2030 put us firmly on the path to help limit global warming to 1.5°C, as outlined by the Paris Agreement.

GREEN ENERGY PRODUCTION

Unilin, the group behind Pergo, has invested in green energy for many years. Today we are operating at 60% renewable energy thanks to windmills, solar panels and even two co-owned biomass plants.

VINYL COMPONENTS

A Pergo vinyl floor consist of ±40% chalk, a material abundantly available in nature, ±25% internally recycled PVC generated from our own production waste, ±25% new PVC, made from chlorine (common salt) and ethylene (crude oil) and additives/plasticizers.

ORTHOPHTALATE-FREE

Additives in our vinyl flooring contain no harmful substances and are 100% orthophtalate-free. The only type of plasticizers we use are the same used in kid's toys and food storage purposes, which means they are completely safe.

We produce flooring in-house so we know exactly which materials they contain and we can control emissions of harmful substances. VOC emissions of our vinyl floors are lower than the European norm, resulting in an A+ rating and M1 label for very low emissions.

SWITCHING TO CIRCULAR PROCESSES

We want to reduce our carbon footprint, by limiting our use of new raw materials and switching to recycled materials.

INTERNAL ECOSYSTEM

More than 99% of our own industrial waste is recycled through our internal production process. We do not unnecessarily burn or dump materials and we operate our own internal closed circuit. This indicates that our production facility takes its responsibility seriously, ensuring that virtually no waste is lost or destroyed.

Did you know that we have the biggest LVT-recycling unit in Europe? We recycle more than 40.000 tons of LVT each year. We are also pioneering in post consumer recycling projects and investing in new production technologies to switch to post consumer recycled content in the core of our future vinyl floors.

DURABLE PRODUCTS

We do everything possible to ensure our vinyl flooring will last up to lifetime. That's why we are proud to offer lifetime warranty** on our vinyl floor.

* The Sciences Based Targets initiative (SBTi) is a collaboration between CDP, the United Nations Global Compact, World Resources Institute (WRI) and the Worldwide Fund for Nature (WWF). The SBTi defines and promotes best practice in science-based target setting, and independently assesses and validates companies' climate targets.

** For full warranty go to Pergo.com.

VINYL PLANKS & TILES

RIGID CLICK

Transform the feeling of your entire room. Make it wider, narrower, longer, darker or lighter depending on which size and colour you choose – the options are endless.

VORMA

PRO 610 × 303 × 4 MM | 4-WAY BEVEL | TILES

The Viskan range is designed for stone lovers. The Rigid Vinyl tiles look like the real deal but are less fragile. And with superior impact resistance, dropping things on the floor is a lot less of a worry. Uniclic® allows for you to install Viskan smoothly, even on uneven surfaces. Perfect for renovation jobs. Viskan also comes in an option with the pad pre-attached. This really makes choosing Viskan a no brainer for anyone who appreciates functional design.

IT ALL STARTS WITH THE FLOOR

IDEAS AND INSPIRATION FROM AN INTERIOR DESIGNER

We sat with Pella Hedeby, Swedish interior designer and stylist, to get tips on what to think about when you decorate your home. Pella has lots of experience in decorating private homes and commercial premises and is passionate about what materials you should choose and everything else about interior design, from flooring to colour combinations.

What are the main things you should think about, when decorating your home?

The bases are everything. If you have well-thought-out material choices that follow a common theme through your home, then you have a great base for the way you furnish. "Less is more" may be a bit of a tired expression, but it's so true. Put lots of thought into what you add. Often it doesn't take much to create that homely feeling. Less "things" make it easier to keep your house tidy and enjoy what you have.

What are the future trends of colours and colour combinations?

I have a restrained approach to trends. Whether it's colours, materials or things. Sure, I can be inspired by something new, but I always ask myself, "Is it something I could live with over time? Did I like this 10 years ago and will I like it after 10-20 years?"

Having said that we see more colour and playfulness in many places today. Together with a minimalist, stripped-down, toned-down expression. It's important to remember that we are all different. Some people constantly need

new impressions and a lot of pulse to get energy. I belong to the group that takes in the smallest shade, filled with a streak of light, a scent and feeling in a texture. So I need to scale back and minimize things to experience balance and harmony.

In my world, materials and textures set the tone and feeling in a room. Then you can work with the smaller details.

Tone-in-tone or mixing your favourites. Like when you put together a bouquet of flowers, layering shapes and colours.

"CHOOSE A FLOOR THAT LASTS OVER TIME"

What things about flooring should you think about if you want to give a room extra space?

Lighter shades give you a more airy feeling. It's the same when you add colour to other surfaces. It reflects light and gives you that feeling of space.

Any rules about combining colour on floors and walls?

When decorating a new home, or renovating from scratch, my tip is to always start with the floor. You lay a floor so it lasts a long time, slightly more long-lasting than the colour

of the walls. The floor forms a large part of the interior and the feeling in the room. The sense of style is set with the floor and the choice of skirtings should be in harmony with the architecture. A great way to put it all together is to create a mood board with samples of materials, colours and inspirational images.

Should flooring in different rooms have to match each other, or should I see each room as unique?

I think it's nice to think holistically and let one material be the base everywhere. But different rooms naturally have different functional requirements. So I would say that it's increasingly common to mix different types of floors based on function and focusing on sustainability.

What's the biggest mistake people make when choosing a new floor?

Many people start with colours and other materials and interior details, leaving the floor as a compromise. I suggest you turn that upside down. The main thing is to choose a floor that

lasts over time. It's costly and time consuming to replace a floor, so choose what is the base of your home carefully.

Any thoughts regarding mixing different types of wood on floors and furniture?

Instead of mixing different types of wood flooring, I'd mix and match different types of wood on floors with other furnishings. For example, it's nice to mix furniture and interior details with a vintage patina that contrast with the choice of materials. I think natural material choices are always welcome elements that add a genuine feeling to any home. If there is a "rule", it's better that it's a complete, natural contrast than something that melts together – but doesn't really. Here you can balance the feeling that if a floor takes loads of space, you can add something to balance it. Like adding a rug and then furnishing with wooden furniture. Or working with wood in smaller details, a hook strip, a wooden bowl or the frames around, art on the wall...

PELLA HEDEBY
INTERIOR DESIGNER

YOUR FLOOR – FINISHED IN STYLE

Choose from our wide range of accessories to give your interior that perfectly finished look. From seamless transitions to stairs or walls, silent underlays to improve your comfort or a skirting that finishes off the room in style. Details make perfection.

UNDERLAYS

Make a great floor greater. Underlays increase walking comfort, improve your room's acoustics, avoid creaking noises and support the click system. They can be combined with underfloor heating or cooling too. No need to install a separate underlay when you choose a collection with pad attached.

SKIRTINGS

Finish the look with colour matching skirtings, or complete your interior style with one of the many paintable white skirtings.

PROFILES

Hide those saw cuts and give your floor room to expand with profiles. Create a smooth transition with the colour matched Incizo® profile. Or go for a metal finish.

ALL YOU NEED TO INSTALL, FINISH AND MAINTAIN YOUR FLOOR

A vinyl floor is more than the planks you walk on. It's a complete home decor solution. That's why Pergo also offers a full line of accessories. Everything you need for trouble-free installation, finishing and maintenance.

1. UNDERLAYS

Enjoy walking on quiet floors without creaks? Choosing the right underlay can improve your living comfort significantly.

2. SKIRTINGS

Give your interior that stylish impression with skirtings that have the same look as the floor. You can also go for the white and paintable skirtings to match the colour of the wall.

3. EXPANSION PROFILES

Floors in connecting rooms melt together thanks to a colour matched expansion profile. Read on about our Incizo® 5-in-1 solution on page 50.

4. ADAPTER & END PROFILES

An elegant way to make a transition when vinyl floors meet other surfaces. Use an end profile between vinyl and windows and an adapter profile between vinyl and lower floor surfaces. Available in our Incizo® 5-in-1 solution.

5. STAIR COVERS

Pergo's flooring is an excellent choice for staircases. Stair covers provide an elegant finish to each step.

UNDERLAYS

Make a great floor greater. Select an underlay before installing your new vinyl floor. Besides creating a level floor, underlays increase walking comfort, improve your room's acoustics and avoid creaking noises. The walking sound reduction table indicates how much sound is reduced in the room. The impact sound reduction table will tell you how much sound is reduced to the rooms below. What's most important in your home? Regardless of which underlay you choose, you can rest assured you've made a sustainable choice. No need to install a separate underlay when you choose a collection with pad attached.

COMFORT UNDERLAY

Sustainable all-round underlay made of recycled PET flakes. Comfort underlay is suitable for any room, has a very good all-round sound reduction and is compatible with underfloor heating or cooling. Thickness: 1,15 mm. 15 m² / roll.

PGVUDLCOMFORT15

Walking sound reduction ●●●●○
Impact sound reduction ●●●●○

HEAT UNDERLAY*

Recommended underlay for rooms with direct sunlight (large windows) and the best choice for underfloor heating. Heat underlay is composed of renewable raw materials, such as plant-based oils and natural occurring fillers, which makes it a truly sustainable choice.** It has a very good sound reduction and it's also compatible with underfloor cooling.

Thickness: 1,55 mm. 10 m² / roll.

PGVUDLHEAT10

Walking sound reduction ●●●●●
Impact sound reduction ●●●○○

TRANSIT UNDERLAY

Ideal underlay for first floors and apartments, offering the best impact sound reduction to neighbouring rooms. Our Transit underlay is a sustainable choice as it's mainly made of recycled PET flakes. It's also compatible with underfloor heating or cooling. Thickness: 1,20 mm. 15 m² / roll.

PGVUDLTRANSIT15

Walking sound reduction ●●●○○
Impact sound reduction ●●●●●

* For commercial use it's mandatory to use the Heat Underlay in combination with Namsen pro and Viskan pro.

** Cradle to Cradle Certified® products are awarded certification based upon their performance across five critical areas of sustainability: Material health, Product Circularity, Clean Air & Climate Protection, Water & Soil Stewardship and Social Fairness.

SKIRTINGS

When it comes to vinyl flooring, beauty really is in the details. What would the new living room floor be without the skirtings to match?

PGPRSILV

NEW: MATCHED RIGID STAIR COVER

Give your staircase a fresh look with easy-to-install stair covers. These durable yet elegant stair covers are made from floor planks, which guarantees a 100% seamless matching fit with your floor. Only available for Namsen, Glomma and Vorma* floors.

QUICK AND EASY INSTALLATION

A really fast way to install with Multigluue.

COLOUR MATCHED FINISH

Use the same stair cover as your floor to give your home that seamless look.

SCRATCH AND WEAR RESISTANT

A stair that will keep its good look years and years to come.

COLOUR MATCHED RISERS INSTALLATION

Gives your stair a seamless look from top to bottom.

PAINTED RISERS INSTALLATION

Install just the treads and paint the rest in the same colour as the wall.

VINYL STAIR COVER - BULLNOSE

Durable vinyl tread cover with a bullnose stair nosing to cleanly finish your stairs. Since stair covers are made of your floor's material, the colour matches 100%.

PGVSTRBMP(-) 1474 x 136 x 54 mm (for Glomma)

PGVSTRBSP(-) 1231 x 113 x 54 mm (for Namsen and Vorma)

For full article number, go to pergo.com

**To install the stair covers in combination with a Vorma floor, you will need Namsen planks with the equivalent decor, to complete your stair solution. For full description, advice the stair cover installation instructions on pergo.com. Only available for wood decors, not stone decors.*

GIVE THE FLOOR AND STAIRS THAT SEAMLESS LOOK

WATER RESISTANT MADE EASY

Installing a water resistant floor is really easy. Follow the steps below and get your vinyl floors ready for splashes, damp and the kids indoor water games.

Only suitable for Rigid vinyl.

TWO STEPS TO GIVE YOUR FLOOR A WATERTIGHT FINISH.

1. FOAMSTRIP

15 m × 8 mm × 5 mm

An elastic filler for gaps around the floor perimeter.

NEVRFOAMSTRIP15

2. AQUA SEALANT

310 ml

Transparent silicone to combine with the Foamstrip for a watertight finish of your floor. One tube for 15 m.

PGKITTRANSP

PGCLEANINGKIT

FIND THE RIGHT FLOOR FOR YOUR PROJECT

Choosing the right floor is often the hardest part of refreshing your interior. Here are some tips to get you started and help guide you towards the perfect floor.

PREPARE FOR WEAR

Our durable, hard-wearing floors stay beautiful for longer. They are the ideal choice for a busy hallway or kitchen.

LET'S TALK ABOUT WATER

A water resistant floor is nice to have in a living room. But in the kitchen, it's a must. Our water resistant floors are also stain resistant.

SIZE MATTERS

Large boards boost the feeling of space in a large room, so if your home allows for it, go big.

THE FINISHING TOUCH

Accessories have a big impact on the look of your room. Choosing a matching skirting makes your room feel complete and lends a solid impression.

USE FLOORLAB

Want more from your floor? Use the FloorLab app. Take a photo of your home and get a sneak peek of which one of our floors is the perfect match for your room. Getting the perfect fit just got simple.

VISIT A PERGO SUPPLIER
