# FLOORS FOR REAL LIFE

At Pergo we build strikingly beautiful, extremely hard-wearing floors. No shortcuts, no compromises, just the best in Scandinavian function, design and engineering. We invented laminate flooring and in fact, we've been innovating floors that have gone from strength to strength since the 1970's. Floors that are easy to install and maintain. And with one of the widest ranges around in wood, vinyl and laminate, you're sure to find the perfect one for you.

Come in and look around.

### ACCESSORIES

It is the little things that make big things happen. Complete the look with Pergo accessories of your choice.

## WHY PERGO VINYL FLOORS?

Our vinyl floors are the combination of Scandinavian minimalism with maximal choice. From soothing beige to calming greys, from cool tiles to warm oak, there's a Pergo vinyl floor to match your style – and all your needs.

Soft, silent and beautiful to walk on, yet ultra-strong, resistant and water resistant. Pergo vinyl floors make sure your hallway and other hard-wear areas look bright and welcoming.

What's more, they're ortho phtalate-free, so you can safely leave the kids playing on the floor while you relax.

Whether you're into DIY or use a professional company, installing your vinyl floor is easy. You can even install our Rigid vinyl floors on uneven surfaces, and some even have underlay attached already. Now that's smart – and simple.

### SOFT & SILENT

It feels warm, soft, and silent to walk on yet the floor is ultra-strong and has excellent resistance to wear and impact.

### WATER RESISTANT

The floor has a worry-free watertight\* surface and offers high resistance to stains, making it a delight to clean.

### NATURAL LOOK & FEEL

Extraordinary natural designs and a tactile, matte surface. The floor will keep its fresh appearance thanks to our new superior top layer.

### EASY TO INSTALL

Fast, easy installation with Uniclic® or Unizip® click system, even on slightly uneven surfaces.\*\* All Pad Pro floors have an integrated underlay, which makes installation even faster and easier.

### ACCESSORIES FOR A PERFECT RESULT

Everything you need from installation to the finished result and after care. Tools, colour matched skirtings and profiles, efficient maintenance products and more.

### LIFETIME WARRANTY

All Pergo vinyl floors have lifetime warranty\*\*\*, so that you can enjoy your floors without worry.

\* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

\*\* For requirements, please advise floor installation instructions on website: [pergo.com](http://pergo.com).

\*\*\* For full warranty go to [pergo.com](http://pergo.com).

## AQUASAFE: BECAUSE LIFE'S TOO SHORT TO WORRY ABOUT WATER

All Pergo Rigid vinyl floors have AquaSafe, our in-house developed technology that creates a sealed, watertight\* surface all the way down into the bevels, preventing water from penetrating the floor. It simply stands on the surface and you can easily wipe it away.

\* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

## NEW PAD PRO: THE FASTER, EASIER WAY TO INSTALL YOUR FLOOR

Most of our Rigid click floors come with the underlay pre-attached, to make installing floors smarter, speedier and easier.

Specially designed for professional installers in multi housing projects, and enthusiasts who want to install more square metres in a day. Another advantage with the Pad Pro is that it gives great sound reduction to neighbouring rooms. Creating added comfort in your home.

Walking sound reduction  
Impact sound reduction

To compare sound reduction qualities of our different installation options with underlay, go to page 34.

### QUICK AND EASY INSTALLATION

A really fast way to install your floor even if you're not a professional.

### NO NEED FOR SEPARATE UNDERLAY

There is no need for sub-work, just go straight on with the floors.

### SUPERIOR SOUND REDUCTION TO NEIGHBOURING ROOMS

The underlay is perfectly attached and give optimal accoustics.

## PREPARE FOR A LIFELONG RELATIONSHIP

Pergo vinyl floors are ready to endure whatever you demand – wet days, messy dogs or just life in general. That is as sure as rainy Scandinavian summers and never-ending winters.

Another certainty is that if there is any way we can reduce our production impact, we're going to do it. For instance, we operate our own internal ecosystem, whereby we internally recycle 99% of our production waste, preventing it from being discarded or incinerated.

In addition, we've invested in a new production line with the capability to recycle old vinyl floors. In other words, we put our waste where our mouth is. Yet another great thing is that our vinyl floors are also highly durable, as we build them to last a lifetime. Ultimately relieving stress for both you and the environment. Very much a double positive.

Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

#### MAKING NEW OUT OF THE OLD

We consider ourselves pioneers in the flooring industry. Eager to find the new 'thing' and the possibilities it brings for improved vinyl floor manufacturing. Oh boy, do we have exciting news! We have invested in a state-of-the-art production line capable of recycling old vinyl floors that can be transformed into new ones for your home. This groundbreaking initiative allows us to employ a circular methodology that significantly reduces the demand for finite resources. Creating a more responsible and resource-efficient production process.

#### LIFETIME WARRANTY\*

As if the incredible durability of a Pergo floor wouldn't be enough – each floor also comes with a lifetime warranty. Yes, that's quite amazing. We want you to rest assured that your Pergo floor will stand by you, no matter what life brings. While also reducing our environmental footprint, as the floor's lifespan extends way beyond the ordinary. Directly contributing to less consumption and waste and paving the way to a more sustainable future.

Viskan also comes in an option with the pad pre-attached. This really makes choosing Viskan a no brainer for anyone who appreciates functional design.

# IT ALL STARTS WITH THE FLOOR

IDEAS AND INSPIRATION FROM AN INTERIOR DESIGNER

We sat with Pella Hedeby, Swedish interior designer and stylist, to get tips on what to think about when you decorate your home. Pella has lots of experience in decorating private homes and commercial premises and is passionate about what materials you should choose and everything else about interior design, from flooring to colour combinations.

*What are the main things you should think about, when decorating your home?*

The bases are everything. If you have well-thought-out material choices that follow a common theme through your home, then you have a great base for the way you furnish. "Less is more" may be a bit of a tired expression, but it's so true. Put lots of thought into what you add. Often it doesn't take much to create that homely feeling. Less "things" make it easier to keep your house tidy and enjoy what you have.

*What are the future trends of colours and colour combinations?*

I have a restrained approach to trends. Whether it's colours, materials or things. Sure, I can be inspired by something new, but I always ask myself, "Is it something I could live with over time? Did I like this 10 years ago and will I like it after 10-20 years?"

Having said that we see more colour and playfulness in many places today. Together with a minimalist, stripped-down, toned-down expression. It's important to remember that we are all different. Some people constantly need

new impressions and a lot of pulse to get energy. I belong to the group that takes in the smallest shade, filled with a streak of light, a scent and feeling in a texture. So I need to scale back and minimize things to experience balance and harmony.

In my world, materials and textures set the tone and feeling in a room. Then you can work with the smaller details.

Tone-in-tone or mixing your favourites. Like when you put together a bouquet of flowers, layering shapes and colours.

**"CHOOSE A FLOOR THAT LASTS OVER TIME"**

*What things about flooring should you think about if you want to give a room extra space?*

Lighter shades give you a more airy feeling. It's the same when you add colour to other surfaces. It reflects light and gives you that feeling of space.

*Any rules about combining colour on floors and walls?*

When decorating a new home, or renovating from scratch, my tip is to always start with the floor. You lay a floor so it lasts a long time, slightly more long-lasting than the colour

of the walls. The floor forms a large part of the interior and the feeling in the room. The sense of style is set with the floor and the choice of skirtings should be in harmony with the architecture. A great way to put it all together is to create a mood board with samples of materials, colours and inspirational images.

*Should flooring in different rooms have to match each other, or should I see each room as unique?*

I think it's nice to think holistically and let one material be the base everywhere. But different rooms naturally have different functional requirements. So I would say that it's increasingly common to mix different types of floors based on function and focusing on sustainability.

*What's the biggest mistake people make when choosing a new floor?*

Many people start with colours and other materials and interior details, leaving the floor as a compromise. I suggest you turn that upside down. The main thing is to choose a floor that

lasts over time. It's costly and time consuming to replace a floor, so choose what is the base of your home carefully.

*Any thoughts regarding mixing different types of wood on floors and furniture?*

Instead of mixing different types of wood flooring, I'd mix and match different types of wood on floors with other furnishings. For example, it's nice to mix furniture and interior details with a vintage patina that contrast with the choice of materials. I think natural material choices are always welcome elements that add a genuine feeling to any home. If there is a "rule", it's better that it's a complete, natural contrast than something that melts together – but doesn't really. Here you can balance the feeling that if a floor takes loads of space, you can add something to balance it. Like adding a rug and then furnishing with wooden furniture. Or working with wood in smaller details, a hook strip, a wooden bowl or the frames around, art on the wall...

## YOUR FLOOR – FINISHED IN STYLE

Choose from our wide range of accessories to give your interior that perfectly finished look. From seamless transitions to stairs or walls, silent underlays to improve your comfort or a skirting that finishes off the room in style. Details make perfection.

### UNDERLAYS

Make a great floor greater. Underlays increase walking comfort, improve your room's acoustics, avoid creaking noises and support the click system. They can be combined with underfloor heating or cooling too. No need to install a separate underlay when you choose a collection with pad attached.

### SKIRTINGS

Finish the look with colour matching skirtings, or complete your interior style with one of the many paintable white skirtings.

### PROFILES

Hide those saw cuts and give your floor room to expand with profiles. Create a smooth transition with the colour matched Incizo® profile. Or go for a metal finish.

### ALL YOU NEED TO INSTALL, FINISH AND MAINTAIN YOUR FLOOR

A vinyl floor is more than the planks you walk on. It's a complete home decor solution. That's why Pergo also offers a full line of accessories. Everything you need for trouble-free installation, finishing and maintenance.

#### 1. UNDERLAYS

Enjoy walking on quiet floors without creaks? Choosing the right underlay can improve your living comfort significantly.

#### 2. SKIRTINGS

Give your interior that stylish impression with skirtings that have the same look as the floor. You can also go for the white and paintable skirtings to match the colour of the wall.

#### 3. EXPANSION PROFILES

Floors in connecting rooms melt together thanks to a colour matched expansion profile. Read on about our Incizo® 5-in-1 solution on page 50.

#### 4. ADAPTER & END PROFILES

An elegant way to make a transition when vinyl floors meet other surfaces. Use an end profile between vinyl and windows and an adapter profile between vinyl and lower floor surfaces. Available in our Incizo® 5-in-1 solution.

#### 5. STAIR COVERS

Pergo's flooring is an excellent choice for staircases. Stair covers provide an elegant finish to each step.

# UNDERLAYS

Make a great floor greater. Select an underlay before installing your new vinyl floor. Besides creating a level floor, underlays increase walking comfort, improve your room's acoustics and avoid creaking noises. The walking sound reduction table indicates how much sound is reduced in the room. The impact sound reduction table will tell you how much sound is reduced to the rooms below. What's most important in your home? Regardless of which underlay you choose, you can rest assured you've made a sustainable choice. No need to install a separate underlay when you choose a collection with pad attached.

## COMFORT UNDERLAY

Sustainable all-round underlay made of recycled PET flakes. Comfort underlay is suitable for any room, has a very good all-round sound reduction and is compatible with underfloor heating or cooling.

Thickness: 1,15 mm. 15 m<sup>2</sup> / roll.

PGVUDLCOMFORT15

## HEAT UNDERLAY\*

Recommended underlay for rooms with direct sunlight (large windows) and the best choice for underfloor heating. Heat underlay is composed of renewable raw materials, such as plant-based oils and natural occurring fillers, which makes it a truly sustainable choice.\*\* It has a very good sound reduction and it's also compatible with underfloor cooling.

Thickness: 1,55 mm. 10 m<sup>2</sup> / roll.

# NEW: MATCHED RIGID STAIR COVER

Give your staircase a fresh look with easy-to-install stair covers. These durable yet elegant stair covers are made from floor planks, which guarantees a 100% seamless matching fit with your floor. Only available for Namsen, Glomma and Vorma\* floors.

## QUICK AND EASY INSTALLATION

A really fast way to install with Multigluue.

## COLOUR MATCHED FINISH

Use the same stair cover as your floor to give your home that seamless look.

## SCRATCH AND WEAR RESISTANT

A stair that will keep its good look years and years to come.

## COLOUR MATCHED RISERS INSTALLATION

Gives your stair a seamless look from top to bottom.

## PAINTED RISERS INSTALLATION

Install just the treads and paint the rest in the same colour as the wall.

## VINYL STAIR COVER - BULLNOSE

Durable vinyl tread cover with a bullnose stair nosing to cleanly finish your stairs. Since stair covers are made of your floor's material, the colour matches 100%.

# FIND THE RIGHT FLOOR FOR YOUR PROJECT

Choosing the right floor is often the hardest part of refreshing your interior. Here are some tips to get you started and help guide you towards the perfect floor.

## PREPARE FOR WEAR

Our durable, hard-wearing floors stay beautiful for longer. They are the ideal choice for a busy hallway or kitchen.

## LET'S TALK ABOUT WATER

A water resistant floor is nice to have in a living room. But in the kitchen, it's a must. Our water resistant floors are also stain resistant.

## SIZE MATTERS

Large boards boost the feeling of space in a large room, so if your home allows for it, go big.

## THE FINISHING TOUCH

Accessories have a big impact on the look of your room. Choosing a matching skirting makes your room feel complete and lends a solid impression.

## USE FLOORLAB

Want more from your floor? Use the FloorLab app. Take a photo of your home and get a sneak peek of which one of our floors is the perfect match for your room. Getting the perfect fit just got simple.

## VISIT A PERGO SUPPLIER
